

Ms de Béthune
Week of February 3-7, 2020

Introduction to Studio Art HW 2.1.1 • Drawings from Home
• Due Week of February 24-28, 2020

Name: _____

In your home, find four places with objects that have complex, organic shapes, and make drawings of them. You are drawing an object IN A PLACE—not just the object. ***In at least one drawing, include a window that you can see through.***

(Organic shapes means that they aren't geometric, or all geometric. Complex means that there is more than one general mass. Shirts, shoes, gloves, fruits and vegetables, pets, etc.... are possibilities. Places might be your kitchen, living room, bed room.)

Be good observers. Think about how wide and tall each object is, and what its contours may be. Think about how it sits in the space—is it on the floor, a table top, a bookshelf—can you show that structure?

Please draw them to the best of your ability. Make them as big as you can to fit the space for them

Remember, I do not expect you to be artists or “good at drawing,” but I do expect effort, which means thinking about details and how they fit together.

Please do this assignment AT HOME. (No cafeteria lunch, boxes of gum or water bottles.)

Use the drawing paper given to you. Fold it in half. Make a drawing in each half on each side. (If you do not take a piece of drawing paper from me, you may substitute one of your own if need be. Please DO NOT use loose leaf paper.)

PUT YOUR NAME ON IT!!!!!!!
